

Are parking spots assigned?

Yes and no!

According to our Country Square legal documents ☼ only garage spaces are assigned. The number on the garage wall corresponds to the last number of the unit in that building. Occupants **may only** park in their assigned spot or risk being towed.

Additionally, since there is not a one-for-one ratio of exterior parking available, owners/tenants may only have one vehicle in the garage and one vehicle in the common parking area

However, outdoor parking spaces **are not assigned**, and are on a first-come-first-serve basis.
